CIRs AND CONTINGENCY PLANNING

Critical Information Requirements

(Information that drives a decision)

1. New Federal/State Directives
2. First confirmed local case of COVID-19
3. First confirmed case of community transmission
4. Incident-related death
5. Medical facilities have 2-4+ COVID-19 Patients
6. Critical shortage of mission essential resource (≤ 1 resupply cycle remaining)
7. Critical personnel shortage ($<$ mission capable)
8. Disruption of supply chain
9. Occurrence of an additional emergency
10. Multiple non-related cases of COVID-19

Each CIR links to a contingency plan

The CIR is a triggering event that will activate its associated contingency plan.

Allows pre-planning of actions, personnel, and resources for quick deployment when the event occurs.

Details thought out before the situation is urgent

Example: CIR #5 Occurs

Execute CONPLAN 5a

Activate Alternate Care Site

Inform State EOC

Increase resupply of consumables

Oxygen

PPE

Cleaning Supplies

Notify First Responders
