

Council Member Darren Reese

Council Subcommittees/Council Representative on Community Boards
Providence Valdez Medical Center Health Advisory Council

Occupation

Valdez Station Foreman for the State DOT

Brief Biography

I was raised moving with the oil field booms, this gave me the opportunity to travel and see a lot of different areas in our country. After High School I joined the Marine Corps, I got to see more of our world. After the Corps, I returned to College, I got my Industrial Engineering Degree from the University of Nebraska. Not long after college, my family and I got the bug to move to Alaska, and twenty years later we are still here. Valdez has been our home for those years, and we have never regretted our decision to make it so.

What are your goals being on City Council?

As a husband, father, and a grandparent, I feel we must be able to help the generation to exceed, and to be successful in life.

I feel we must be able to attract new business to our town. I also feel we must be able to answer the affordable housing crunch that we are currently facing.

What do you enjoy most about living in Valdez?

Living in a small town, every time I come to town I always see someone that I know. It is nice to know you really do count, and are not just another face.
